CORRESPONDENCE TOUCHING COM-MITTEE ASSIGNMENTS OF LATTER.

Second Piace on the Ways and Means Re spectfully Declined-Other Possible Assignments Left to the Speaker.

(By telegraph to the Dispatch.) Washington, December 19. -- Some of Mr. Mills's close friends assert positively that he has been tendered by the Speaker and has declined the second place on the Committee of Ways and Means, with the chairmanship of another committee. The Speaker, feeling that the matter is not proper for discussion at this juncture, declines to say anything upon the subject, and Mr. Mills is equally reticent at pres-ent, although it may be that the cor-respondence will be made public hereaf-

ter.

It is quite certain that pressure is being brought to bear upon the Speaker by persons not heretofore identified with Mr. Mills's aspirations to cause his appointment to the chairmanship of the Ways and Means Committee. As far as can be learned the Speaker has not yet committed himself to the appointment of any member to this chairmanship, and as Mr. Mills's reply to his tender is said to be couched in such terms as to warrant the assumption ch terms as to warrant the assumption that he would not reject the place, the entire matter appears to be still subject to

harmomous arrangement.

The Speaker to-day said that he expected to be able to announce the committee appointments when the House meets next Wednesday.

The actual turning over of the funds, however, will require formal action on the part of the Press Association at the general meeting to be held at Birmingham, Ala., in May next.

The amount contributed so far in cash to the Southern Press Association fund, and which is on deposit in various banks throughout the South, is between \$1,500 and \$2,600. The subscription pledged and not yet collected is much larger.

Mr. Cunningham will go from here direct to Texas to solicit subscriptions in that State.

WASHINGTON, December 19.—House.—It being understood that there would be but a short session of the House this morning the attendance of members was very small. agreed to providing for a holiday recess from Wednesday the 23d instant until Tuesday the 5th proximo.

Mr. McMillin, from the Committee on Rules, reported a rule designating the committees of the House and the membership thereof. The method of designating the chairman of any committee was changed in this, that formerly in the event of the death of a chairman the second member succeeded to the office, whereas now the appointment of the chairman is now the appointment of the chairman is given to the Speaker.

Mr. McMillin made a brief statement in explanation of the report. The membership of the Committee on Ways and Means was increased from thirteen to fifteen. The reason for this was the fact that since the number had been fixed at thirteen there had been a large increase in the membership of the House. The Committee on Quadro-Centennial had been increased from nine to eleyen, and a similar increase had been made in the Committee on Immigration. The Committee on Indian Depredation Claims had been abolished for the reason that at the last Congress a law had been passed submitting these claims to the courts. The name of the Committee on Commerce had been changed to the Committee on Interstate and Foreign Commerce. COMMITTEE CHANGES

THE COMMITTEE ON THE COOK-COUNTY FAIR. Mr. Springer, of Illinois, suggested that the designation of the Quadro-Centennial Committee should be changed to the Committee on the Columbian Exposition. Mr. McMillin jocularly remarked that it might be called the Committee on the Chicago Exposition, but that he had no objection to the change proposed, and the suggestion was agreed to. The report was then adopted.
